

I am appalled at the decision by Sinclair Broadcasting to force their stations to air an anti-Kerry documentary days before the election.

This is a threat to our democracy and I am very concerned about the use of the media by few consolidated owners.

This is nothing more than abusing the media for propaganda purposes. The media has always been the medium to provide fair/balance and at the very least show both sides of any controversial issues.

This is the very strength of our democracy and allowing Sinclair to proceed with this decision will weaken our great nation.

Please stop this kind of activity and I urge you to consider their actions when they request renewal of their license. Thank you.
